Quiet Smart Pods

**Dancoo P Family**

10/2024

Privacy-First Smart Innovation

Dancoo P's smart pods, featuring a high-resolution touchscreen, greatly simplifies preset and real-time adjustments for ventilation and lighting within the pods. The dual-light source design offers high color rendering index while seamlessly switching between video and work modes to cater to individual needs. Adjustable dual fans with a damping bracket ventilation system enhancing the overall intelligent experience. We recognize that data regarding clients' usage of soundproof pods constitutes their business privacy, and as such, we refrain from transmitting or processing such highly sensitive information and will not use it as a prerequisite for making the pods smart.

Triple Privacy Guaranteed

We respect the business privacy of our customers' data regarding the use of soundproof pods and will not use it as a prerequisite for making the pods smart. Dancoo P exceed 30dB in D<sub>S,A</sub> according to the industry's highest ISO23351-1 testing standards and rating methods, achieving Class A soundproofing. Dancoo P has been awarded the world's first "Excellent Quiet" "Premium Performance Gold Award" certificate issued by SGS for its outstanding acoustic performance. Additionally, Dancoo P is characterized by a design concept that emphasizes visual privacy, seamlessly integrating advanced technology into every detail.

Airflow that keeps you fresh

With our smart airflow system, you can feel refreshed and focused. Our improved ventilation keeps the air around you fresh every minute, like a clean and cozy space. You can easily adjust the ventilation with just one touch on the pod's touchscreen. Our advanced ventilation solutions make you feel comfortable and convenient.

Even Closer to Nature

By incorporating high CRI lighting that mimics natural daylight and using natural birch plywood materials, Dancoo P creates a workspace that feels even closer to nature. Automated dual-lighting sources adapt to your needs, and preset lighting options are available for you to choose from, suitable for either work or video mode. Video-optimized lighting enhances your appearance during video calls. Adjustments can be made quickly and easily through the touchscreen display.

A-CLASS SOUNDPROOF

30 dB

Guaranteed Class A privacy with speech level reduction exceeding 30dB, as evidenced by SGS test reports and the ISO 23351-1 rating for office pods.

AUTOMATED AIRFLOW

56 sec

Air inside the pod is fully renewed every 56 seconds with maximum air flow.

SENSITIVE INFORMATION HANDLING

0 %

We recognize that data regarding clients' usage of soundproof pods constitutes their business privacy, and as such, we refrain from transmitting or processing such highly sensitive information.
